TEN CENTS A WEEK

WEEK'S EVENTS TO BE OF WIDE PUBLIC INTEREST

President Taft's Journey Ends---King Edward's Birthday---Madame Steinheil's Trial.

WASHINGTON, D. C., Nov. 8.—The week will see the close of President Taft's thirteen-thousand-mile journey, the birthday of King Edward, the continuation of the Steinheil trial in Paris, the meeting between the monarchs of two nations in London and an important labor conference in Toronto.

The foreign field, interest largely in the sensational trial of Madame Steinheil. The sixty-ninth birthday of King Edward will bring forth commemorations of note on every side. During the week the King is expected to welcome to English shores King Manuel of Portugal. In the British Parliament, the contest over the budget is approaching a crisis. The Commons will have a debate of a week or more, owing to the adjournment to be taken on Tuesday, Nov. 18 to permit the mem-

bers to digest the revised estimates of Mr. Lloyd-George, chancellor of the exchequer.

The revolution in Nicaragua still holds attention, in view of the conflicting claims of advantage put forth by both sides.

Taft to Cheer for Yale.

Wednesday will find the circuit of President Taft's journey completed with the return to Washington. Almost immediately he will start on another trip, this time a short one, into New England, where at Middletown, Conn., he will on Friday attend the installation of Dr. William P. Shunklin as president of Wesleyan University. The President is also expected to cheer for his own college in New Haven, during the Yale-Princeton football game on Saturday.

At Toronto President Gompers and other officers of the American Federa-

ANOTHER "TIGER" IS CAUGHT BY MARSHAL

WORKED SCHEME OF MARKED MONEY ON DEFENDANT.

Only a Half Pint of Whiskey Was Purchased, Which Led to Hutchinson's Arrest.

Lem Hutchinson, who operates a small stand in what is known as the "alley," was arrested on Sunday by Marshal Dell charged with selling whiskey and will be given his preliminary hearing before Mayor Davis.

This is only one among a number of "suspects" that the Marshal has had in view and with the assistance of Chas. Pinkson and B. M. Heckard a plan was devised to catch the man, whom they had suspected strongly for a long while.

Hutchinson was found at his place of business and readily waited on the colored men who were sent to the place with marked money to buy whiskey, and after the trade was closed they delivered the whiskey and cigars over to the officer, who made the arrest.

Marked money was used of the denomination of 25-cent pieces, two being required to purchase only a half-pint of the "fire water." The remaining 10 cents was to buy two cigars.

Three colored men were in the scheme with the officers, and are witnesses to the transaction, while the money and whiskey comprise the other evidence in the case, for the same money was found upon the negro after the trade was made and the Marshal made the arrest.

tion of Labor have already arrived for the annual convention of that organization, which begins on Monday. Farmers will meet in Des Moines, Ia., on Tuesday for the sessions of the Patrons of Husbandry, national grange.

Senator Aldrich of Rhode Island will deliver the second of a series of addresses explaining the work of the Monetary Commission at St. Louis today.

Trial of the Tennesseans accused of night-riding is set for today at Union City.

Cincinnati offers an aviation meet beginning Friday and continuing three days.

North Pole Dispute.

Developments in the North Pole controversy may come out of Washington, where the National Geographic Society, after certifying Mr. Peary's claim, is searching to obtain data bearing on Dr. Cook's expedition. Mr. Peary lectures before the society on Friday, giving the first of a series of addresses.

In New York the National Horse Show and first nights at the New Theatre, the Manhattan Opera House and the Metropolitan Opera House, open the social season. The leaders of American Judaism attending the central conference of American rabbis, will be in session in New York beginning Tuesday and lasting until November 16.

Other gatherings of note include the conference on the prevention of infant mortality at New Haven on Thursday and Friday; the meeting of the National Congress of Mothers at Atlantic City on November 9 and 10; a convention of the American Society of Municipal Improvement at Little Rock, Ark., on November 9 and 11, and on the same days a convention of the Roadmasters and the Maintenance of Ways Association of America in Washington.

Change in Schedule.

There has been a slight change in the passenger schedule of the Seaboard. The two passenger trains now leave here fifteen minutes earlier than formerly and the general public should take notice of this fact.

MUCH OF THE SOUTH'S LAND IS LYING IDLE

Some Startling Figures Will Be Considered at Southern Commercial Congress at Washington.

WASHINGTON, Nov. 8.—In view of the present and increasing depression in rural and Lancashire districts of the British Isles, conditions which have been investigated by a royal commission and reported upon with genuine alarm, a paper will be read and discussed at the Southern Commercial Congress, December 6 and 7, on "Opportunity for Southern Propaganda in the British Isles." The paper will be prepared by Thomas L. Field of London, a Virginian by birth, resident in England in connection with varied shipping interests.

Additional subjects to be considered during the congress: "Neglected Agricultural Opportunities in the South" and "Colonization Opportunities in the South," will all have relation to the one great subject of attracting to the South elements of population that will strengthen rather than tear down the civilization of which the South is justly proud.

The committee on arrangements, at the headquarters of the congress in Washington, is already in receipt of letters from owners of large plantations and real estate men relative to lands that could be grouped for colonization purposes, and it is hoped that a safe working plan will be evolved from the proceedings of the congress.

Attendance on the Southern Com-

mercial Congress is open to all, its expenses being met by the commercial organizations of the South, acting co-operatively:

The above figures show that less than one-quarter of the land area of the South is serving agricultural purposes, yet the distribution of rainfall, the steady temperature, the long growing season, the varieties of soil promise pre-eminence in the South in agriculture when science and brawn unite to produce the result. Iowa has 86 per cent of its farm area improved, according to the census of 1900.

Now Inland Towns Are Discriminated Against

Ocala Banner recently contained the following:

"We are glad that some of our State papers, notably The Tampa Tribune, are giving some attention to the inequalities in freight rates."

"We shall cite a case which will show how glaring are these inequalities. Freight on canned goods from Jacksonville to Ocala is twenty cents per hundred pounds."

"Freight on Jacksonville to Ocala the rate is forty-one cents per hundred pounds."

"One would think that the merchant, shipping a cargo of goods from Baltimore would pay a freight rate of twenty cents to Jacksonville and forty-one cents to Ocala, making a total of sixty-one cents."

"Not so. He has to pay ninety cents."

"An Ocala dealer is told that from Jacksonville to Ocala is interstate and the interstate rates makes the difference."

"Does this inequality show it?"

"The Jacksonville dealer, having paid twenty cents per hundred for goods from Baltimore can ship them to his interior customers at forty-one cents per hundred."

"While the same goods cost the Jacksonville dealer sixty-three cents per hundred pounds from Jacksonville a difference of twenty-two cents per hundred pounds in the Jacksonville dealer."

"There is the justice in such a case."

business operation, and with these inequalities in force, how are we to build up a wholesale business in the interior?

"We pause for an answer."

Not only are these irregularities hurtful and annoying, but railroads are privileged to do other things which are not admissible to individuals and other corporations.

The writer recently had occasion to ship a couple of carloads of stuff from Savannah, Ga., to Tallahassee. A rate on the shipment was guaranteed us and inserted in the bill of lading. The contents of the two cars were carefully packed, labeled and braced to avoid any breakage or damage. When the cars arrived in Tallahassee the careful packing and bracing had all been torn asunder, the goods tumbled over indiscriminately on the floor, and much of it was broken and rendered valueless, besides a rate of three times the guaranteed amount charged against the shipment.

If this public carrier could not have protected the rate it should never have been given. When a car is loaded for a designated point it is the presumption that the consignor or consignee owns that car until its contents are delivered, and no one should be privileged to enter and molest it.

We were damaged far in excess of the raised rate on the shipment, and the railroad will be the sufferer by not permitting its original agreement to stand.—Tallahassee Democrat.

A little want ad. will accomplish big results.

Four Young Women Die in Typhoid Epidemic

CHENNAI, Ala., Nov. 8.—The official report issued yesterday by W. F. Brown, chairman of the board of health of the Athens Female College, which was recently suspended because of an epidemic which was prevalent there, states that four of the young ladies died on Friday.

They were Miss Florence Brown of the principal, secretary of the principal,

Miss Nina Ward of Madison, Miss Louise E. McWhorter of Gaylesville and Miss Annie Nichols of New Hope.

Two of them died at their homes and the others at the college building. The two previous deaths in the college were over thirty years ago. The epidemic has been pronounced typhoid fever, but the source of infection has not yet been determined.

Boy Husband Says Never Marry On \$8 Per Week

CHICAGO, Nov. 8.—Supporting a wife and baby on \$8 a week shattered the romance of George A. Smith, eighteen years old, and his wife, one month younger. He has been held to the grand jury on a charge of abandonment.

They were married after a courtship which began at a west side skating pond. On the wedding morn they had \$11.65. The wedding expenses reduced it to \$7.15. On this capital they started housekeeping. George had been getting \$4 a week in a brokerage office. When his employers heard of his marriage they raised it to \$8.

Following is a list of their average weekly expenses: Household expenses, \$3.50; rent, \$2; instalment on furniture, \$1; lunches, 60 cents; el-

gars, 20 cents; life insurance on baby, 20 cents; incidentals, 20 cents; theatre, 20 cents; soda water, 10 cents; total, \$8.

"Well, here is the finish of a '\$8 per' marriage," the young man began as he told of the romance and study in economics. "Three years ago Almenia and I got going together. We kept it up and I married her about a year ago. We lived on 50 cents a day. I usually had about 25 cents for myself. The 15 cents we saved nearly every day and my wife got a new dress. Of course, sometimes we had to take out a dime or a quarter for the baby or a show."

"When I got out of this I will shun all married life. Any young fellow that asks my advice on marriage will get this answer: 'Never again.' Boys, don't ever get married on \$8 a week."

Occupants of Automobile Met Death in River

CHICAGO, Nov. 8.—An automobile containing several persons plunged into the Chicago river last night at Jackson boulevard, and the occupants of the machine were drowned. No bodies have been recovered.

A witness to the accident reported to the police that the bridge at Jackson boulevard had been opened for a steamer to pass and that the automobile, which was approaching the bridge at a rapid gate, struck the abutment, turned over, and fell into

the river with all its occupants. A moment later he saw a man and woman struggling in the water, the woman clinging to the man. She screamed for help and a bridge tender threw out life preservers, but both victims sank.

Firemen and police reached the scene soon after the accident and began to drag for the bodies.

The witness to the accident reported that the automobile contained four persons.

ING TO BOARD TRAIN

GEORGE SMITH MEETS ALMOST INSTANT DEATH MONDAY.

Was En Route to Ocala to Assist His Son, Who Was Reported in Trouble.

George Smith, a middle-aged colored man who was employed by Wade Thomas of Montecocha, was killed here Monday at noon while attempting to board the south-bound passenger train of the A. C. L. just off the square.

From what could be learned it appears that Smith had learned of his son being arrested at Ocala and came here for the purpose of getting the money to go there and get him out of his trouble, when he met his sudden death by being ground to death under the wheels of the cars.

Two coaches passed over the man's legs and from his thighs down his flesh resembled a mass of sausage meat, so badly cut and mangled was his condition, and he lived only a few minutes after the accident, never once speaking to anyone.

Witnesses who claim to have seen the accident state that the train had passed and the darkey at first caught the Pullman car to board the train, but realizing he was in the wrong place turned loose and ran further up between the white coach and the Pullman and attempted to get on the train but someone standing on the platform interfered with his getting aboard and in some manner his feet were caught under the trucks, which quickly pulled him from his hold and he was ground beneath the wheels.

Sheriff Ramsey on learning of the affair summoned Justice Carlisle, who viewed the remains, but after hearing some of the evidence deemed that an inquest was unnecessary and turned the body over to Smith's wife and other relatives who had come with him to the city.

The darkey was said to be a good man and had worked for Mr. Thomas for quite awhile on his farm in the Montecocha section, but desirous of releasing his son from trouble had come here and secured the money only to meet his sudden end.

The above is the second accident resulting in death that is known to have happened on this road here since it has been running through the city and is a most remarkable record. In view of the fact that people are always jumping on and off the cars while the same are in motion.

The Fascination of Corn Cutting.

Corn cutting always has a fascination for me. I like to see the farmer grip the tall stalks with a stout hand and, deftly holding them, clip them with a quick stroke of a knife. Around the bundle when it is gathered he twists a slimmer stalk and tucks the ends tightly under. It is a tidy art, for a twist may lack just the inch that holds the bundle. The farmer's work develops quick judgment as well as deftness of hands, and it is a good school, for it makes the hands and the hands work together. The boy who follows with a fork should be able to lift the bundle and build a stack that will resist the wind. When the huskers come every ear should have been kept well up from the ground and the stalks so well ventilated that there is no smell of mildew.—E. P. Powell in Outing Magazine.

FARMERS WILL ATTEND MARION FAIR

BEST BEING WORKED UP FOR THIS GREAT SHOW.

One of the Largest and Best Exhibitions to Be Seen in the State.

The announcement of the special service to Ocala for the Marion County Fair, much interest is manifested by the people here. A large crowd will be present to the great show of Central Florida.

Farmers are talking of the matter and it is more than probable that the largest number of this fair will be present. One time will be present to the great show, while a large crowd will also go for the amusement alone.

There is now an effort being put forth by the association of that county to induce other sections to participate in this great show, and it is understood that they will extend a special invitation to N. A. Callison of Marion Park Farm to show some of his stock at the fair, as they think that this would be a great attraction from their sister county of Marion.

The proper interest displayed readily be seen what a great fair will prove to this section of the State, and if the right effort is made another year can see a mammoth enterprise swell to proportions as to embrace a number of counties throughout this section.

The Fair Association of Marion County own their own grounds and buildings and have paid every cent of premiums advertised, but they have secured outside money from the liberal merchants and the purses have been doubled, while the individual prizes offered by some of these will make an extra inducement to people to show what they produce.

And every feature of fair work has been taken up in the booklet issued by the association and the list of premiums is one of the most liberal to be found, allowing something for every exhibit offered.

NEW STUDENTS AT UNIVERSITY.

Eleven Additions Made to Enrollment of Institution Monday.

The attendance at the University of Florida is constantly increasing, and the present session promises to prove the most successful in the history of the institution.

On Monday there were eleven additions to the enrollment, nine in the agricultural department and two in the law school.

The young men who have entered for a course in agriculture are from Pensacola, and are as follows: C. C. Honks, F. H. Vaughn, W. H. Willson, F. L. Thompson, N. A. Bartley, W. P. Stewart, W. W. Ridpath, C. P. Mimmis and A. L. Webb. The new students who enter for the law course are E. N. and S. A. Keen, who come from Lake City.

At the Play House.

The management of the Baird Theatre is to be congratulated on securing the class of attractions now booked, and should be supported. Gainesville is entitled to the best, and if the people will attend the plays they will continue to be of that high class that will prove instructive and otherwise beneficial.

It is true some will complain at the prices, but they should not. The high-class attractions will not appear here at a lower price than they do in Atlanta, Savannah, Jacksonville and Tampa. The local management has absolutely nothing to do with making the prices—the prices are fixed by the theatrical companies, and if they can't get the prices asked they will simply cut out the houses that refuse to pay them.

The attractions booked by the management of the Baird Theatre this season are those which play the best cities in the South, and always at the best houses. Gainesville people cannot afford to miss these good attractions. They are educative and good for an ingrowing disposition.

Return of the Manchans.

While a large audience witnessed the splendid performance of "Dora Thorne," given by the Manhattan Theatre Company several weeks past, it is likely that a great many more have heard about it since the production here, and there should be a large audience to greet the players when they return Thursday, November 11th, to give three more performances.

The Manhattan Company is remarkably well-balanced, and undoubtedly one of the strongest popular-price attractions to play here this season.

NOW SOLD IN AMERICA.

In Less Than Three Years, Parisian Sage, the Splendid Hair Tonic, Is Sold All Over America.

There is a reason for the phenomenal sale of Parisian Sage in the United States during the past three years.

And the reason is plain to all: Parisian Sage does just what it is advertised to do.

Ask W. M. Johnson about it; he will tell you that he rightly guarantees it to cure dandruff, stop falling hair or itching scalp in two weeks or money back.

There is no reason whatever why any man or woman should fail to take advantage of the above generous offer.

But one thing that has made Parisian Sage so famous is its peculiar power to turn the harsh, unattractive hair that many women possess into luxuriant and radiant hair in a short time. Women of refinement the country over are using it and it never disappoints. Read this letter:

"I procured Parisian Sage and found that it was a great hair tonic and cleanser. I have used other preparations but Parisian Sage cleaned the scalp, stopped all irritation, made my hair fluffy, silky and left no trace of stickiness as some other hair tonics had."—Mrs. Sarah Sanderhoff, 1403 N. MELROSE NOTES.

MELROSE, Nov. 8.—Referring to the recent letters in The Sun from Northern correspondents about "Gay Melrose," in which things got rather mixed as far as the Santa Fe navy is concerned, the following is a correct list of all launches in commission: "Santa Fe" and "Lenema" of the Melrose Transportation Co.; "Indian Princess" (L. M. Pearsall); "Dixie" (B. Chamberlin); "Eftie" (H. W. Hamlyn); "Emory B" (A. Boring); "Key-stone" (J. Remmell); "Skidoo" (H. von Nosky); "Arrow" (H. Shooter); "Indian Chief" (T. A. Birt); "Carolina" (T. S. McManus), and Geo. Granger's launch.

C. P. Huffman left Thursday for Live Oak on a visit to Mrs. C. W. Rogers.

H. Grimes of Plant City was in town Friday.

The Melrose Camp of W. O. W. are going to make a great many improvements in their hall. Work will begin almost at once.

Mr. and Mrs. H. W. Hamlyn, Mrs. N. Orr and Mrs. A. O. Tredwell arrived Friday from Hokokus, N. J., for the winter. Quite a party is due to stay.

For Feverishness and Aching

Whether from Malarious conditions, colds or overeating, try Hicks' Capidine. It reduces the fever and relieves the aching. It's liquid—10, 20 and 50 cents at drug stores.

For Men!

Some folks find it hard to find a gift suitable for a man, but we have an exquisite line of Cuff Links—plain gold for monograms, diamond set and chased. Fobs—signet style and emblem mounted on silk ribbon, and gold woven with safety attachments. Scarf Pins, beautifully fashioned, diamonds and other precious stones, enameled, signet and many others.

Our Piano Contest still grows in interest. The High School pupils and teachers have taken hold and the people of North Gainesville have entered their hall in the race, so there will be something doing.

The Pensacola News, a strong supporter of Governor Broward for United States Senator in the last primary, is now advocating the election of Hon. W. A. Blount with all the tact for which its able editor is noted.

The Sun is pleased to note that the proposed hard road to Lake Newnan is now almost a certainty. There is not a more beautiful sheet of water in all Florida than Lake Newnan, and the construction of the proposed hard road would soon result in this beautiful lake being a great pleasure resort. If Mr. Phillip Miller succeeds in getting the road built he will have erected a monument to himself which will be pointed to by generations to come. By all means let's have the road to Lake Newnan, Gainesville's natural pleasure resort.

The wets were victorious in the local option election in Dade county last Saturday by a majority of 44. Two years ago the saloon interests only had four majority, since which time Palm Beach county has been created from Dade and there are now two wet counties comprising old Dade. Recent elections in the State on the whiskey question show that the wets and drys are each holding their own, and indications are the State-wide prohibition amendment next year will not be as easily adopted as supporters of the measure have been claiming. It is going to be a hard-fought battle, and no one can foretell the result at the present time.

When the son of a great railroad magnate condemns the Government land lottery plan of disposing of land, and says he is ashamed of the money his road made out of the transportation of the land seekers, he strikes a heavy blow against a scheme that had already met with great disfavor. Apart from the moral stigma of a government being engaged in what is, to all intents and purposes, a lottery, the plan involves a vast and unnecessary expense and therefore works injustice to the many thousands who fall to draw a lucky number. The Government will have to devise some more equitable scheme of disposing of its remaining lands.

Every corner of Europe is seething with unrest and the future is full of uncertainty. In Finland it looks as if Russian aggression would destroy the last vestige of autonomy. Greece promises to force the abdication of the king through the military dictatorship that has been growing for several months. Spain is still feeling the effects of the death of Ferrer, the Catalan revolt and the unpopularity of the Moroccan war. The visit of the Czar of Russia to Italy is resented by Austria and probably means the early dissolution of the Triple Alliance and the alignment of Italy with Great Britain, France and Russia. And Germany and Britain are still suspicious of each other. Taking it altogether Europe is very like a keg of gunpowder into which almost any day a lighted match may be dropped with disastrous results. Most certainly it will need cool headed diplomacy and the strongest influence of peace-loving rulers and statesmen to restore harmony and replace suspicion with confidence.

VARIOUS OPINIONS ON THE ELECTIONS.

It is of course inevitable that there should be much speculation over the probable future of Tammany Hall. But it is much too early to administer on Tammany's estate. It is too large, and the chieftains can easily survive a period of separation from the purse strings. It is of course a very serious thing for an organization like Tammany to lose the board of estimate and apportionment. One cannot over-estimate what has generally been termed the cohesive power of public plunder, but the Tiger's hold has not been altogether broken, and thoughts of possible plunder to come should have a cohesive effect. Besides which, there is little doubt that New York has been governed in such a way as to suit New York, in a large measure. The New York Sun seems to realize this, and it takes the election of an undesirable citizen very seriously. On the morning after it said:

"Judge Gaynor, certainly the most unfit candidate ever offered for the mayoralty in the history of the community, has been elected by an impressive plurality. The fact is full of sinister significance.

"We discern in it a deplorable manifestation of public temperament, and irrepensible determination to give effect to a sense of deep and widespread resentment, but to do so without a thought of the consequences or of the moral delinquency involved in the act."

On the morning preceding the election, The Sun had thus alluded to Tammany's candidate:

"Whoever is elected, the community has at last a reason for gratitude to its wise and pure monarch. No matter if the mephitic plague should continue for four years and the blind, the deaf and those with an imperfect sense of smell be envied and envious as they have been for the last few weeks, still are thanks due to our illustrious potentate and grand elector, the supreme werowance of Tammany. He has taken Gaynor off the bench. Even should the city lose, the courts and the State have gained immeasurably."

Judge Gaynor told recently how he expected to prosecute a number of people after the election. He was accused, among other things, of being in sympathy with the race track gamblers and other undesirable elements. We are inclined to think, however, that it would be well for him to start that movement against The Sun.

The Washington Post, having before it the early returns, saw therein some things to which it refers as follows:

"The elections indicate that the people of the country, from Maine to California, are tired of too strenuous 'reform.' Wherever they had an opportunity they turned down self-appointed 'reformers' and elected plain, ordinary American citizens to office. Gibbon, the Philadelphia reformer; Tom Johnson, the Cleveland reformer, and Heney, the San Francisco reformer, were beaten out-right, and Whitlock, the Toledo reformer, barely got through.

"The campaign and election in New York attracted most attention, but there was really no issue involved, except the old issue of Tammany. The big guns of the Republican and Democratic parties took no part in the campaign. The outcome has no bearing upon national issues. Tammany elects Judge Gaynor, but loses control of the purse strings. So its victory is barren. The organization, however, remains intact—the best fighting machine in the country.

"The lack of any real issue in the New York campaign accounts for the comparatively small vote cast for Mr. Hearst. He is at his best when fighting aggressively on clear-cut issues.

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists.

Take Hall's Family Pills for constipation.

The outcome, in our opinion, has no bearing upon Mr. Hearst's possible strength in future struggles. He is a man to be reckoned with hereafter.

"The elections, while locally interesting, had little or no relation to national questions. The results afford very few hints as to the attitude of the people toward tariff matters, for example. Republican strongholds remain at their normal strength, and Democratic sections remain untroubled. The country will have to wait longer before it can estimate the temper of the people as affected by events since last November."

We think The Post, however, is in error in saying the various elections are without national significance. The returns from Massachusetts indicate that the political days of Senator Lodge are numbered.

A steady increase in shipping has been noticed in Fernandina in the past month. The recent determination of the naval stores operators to increase their shipments from that point will add greatly to its value as regards future business interests.

Sanford's Commercial Club is now an assured thing. The incorporation papers will be filed by January 1st. They already have 115 members. The organization will start with a capital stock of \$5,000.

He is indeed the people's President when he writes himself down as a lover of 'possum with sweet potato trimmings, says The Atlanta Constitution.

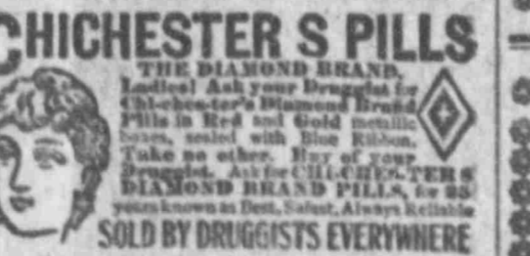

NATURE SPARES

The Stricken Rose From Grief.
What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Cold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. NEWS FROM ALL
PARTS OF FLORIDA

The bank clearings for the week ending Saturday in Jacksonville amounted to an aggregate of \$2,038.

Jacksonville is soon to have another novelty in the way of an English Inn and Tea Room. This is something entirely new for that city.

Reverend Edwin G. Weed is now in Jacksonville, where he went Sunday to officiate on his annual visit to St. James church and to confirm a number of converts.

Steve Hall, a negro living in Jacksonville, was arrested Saturday for being responsible for the stabbing of Will Carson in a fight Friday night.

James Cribbetts has been awarded a contract by the county commissioners for hard-surfacing one mile of road located north and west of St. Petersburg.

Alfred Murrat, a taxicab driver of Jacksonville, is in jail as a result of collision with a buggy belonging to E. Garner. He claims that it was his fault.

Dr. R. T. Walker of Cedar Key moved to Jacksonville recently a pair of very fine chickens. He has Rhode Island Reds and Black Langshans.

Mrs. M. D. Montgomery, aged 73 years, died at the Manor-Livingston hotel in St. Petersburg on Friday, after an illness of nine weeks following a paralytic stroke.

Cigar shipments from Tampa for the week ending October 30th amounted to 5,805,000, making the week named a banner week in the history of that city.

A demurrer in the case of Hardaker vs. the Tampa-Havana Lumber Company was argued before Judge Bullock in Ocala Saturday. The Judge held the case under advisement.

The date has been arranged for the show which is to be held in Jacksonville during Carnival Week. It will be held Wednesday afternoon, November 24th, at the Exposition building.

A concrete building is under construction at Bunnell and it is expected that it will be completed not later than the 15th of this month. A drug store and bank will open up in the new building.

Jacksonville now enjoys wireless communication with the world at large, as the station has been formally opened. The first message was received at The Times-Union office. The station is located at the Aragon Hotel.

Friday morning a daring robbery was made at Ballast Point, near Tampa. A lodge of a caretaker there was entered and about \$100 in cash was stolen. The matter was at once reported to police, but the guilty party made his escape.

FOR CATARRH

Medicine Free in Every Case Where It Fails to Relieve.

Neglect or pessimism, we believe, is the greatest enemy the public has to contend with when applied to the loss or recovery of health. Practically every case of consumption might have been cured if hope had been maintained and proper treatment had been resorted to at the first symptom of the disease. Until the advanced stage is reached consumption is curable. Catarrh is responsible, we believe, for many cases of consumption. It is about catarrh we want to talk to you today, incidentally consumption, since the two are so closely allied.

We have a medicine made from a prescription of one of the most successful catarrh specialists known. We believe it is positively without an equal. We are so satisfied that we are right, that we will supply the medicine free in every instance where it is used according to directions for a reasonable length of time, should it fail to give satisfaction in every particular. We want every one to try this medicine at our risk. There are no conditions attached to our offer. We put the user under no obligation to us whatever.

The medicine we want you to try is Rexall Mucu-Tone. It is a catarrh remedy that goes direct to the seat of trouble. It is carried by the blood to every part of the system. It purifies and enriches the blood, tones up the mucous cells, and brings about a condition of health and strength that tends to prevent the germs of consumption from getting a start. Besides this, Rexall Mucu-Tone is a wonderful appetizer, digestive aid and flesh builder. Its good effects are often felt from the very first dose. It is one of the largest and most satisfactory selling medicines that we have ever had anything to do with.

We know so much of the great good that it has done that we personally back it up with our reputation and money, which fact should be ample guarantee to satisfy anybody. Rexall Mucu-Tone comes in two sizes, 50 cents and \$1.00. We urge you to try it. Remember you can obtain Rexall Remedies in Gainesville only at our store—The Rexall Store, J. W. McCollum & Co., corner East Main and Union streets.

reported to police, but the guilty party made his escape.

Much interest is now being taken in Lakeland over the forthcoming municipal election, which will be held November 15th. Several new candidates are out for the various offices, and the race for mayor promises to be unusually interesting.

The artesian well now in progress of boring at the Nassau Truck and Farm Company's experimental farm at Fernandina is well under way, and now down to over 500 feet. Water has already come in large quantities, it is said, but a greater depth is deemed desirable.

When Valor Balks.

A couple of Kansas men were talking of fearlessness the other day. "All this talk," said one of them, "reminds me of a peace officer I knew a number of years ago in western Kansas. This officer was entirely fearless—in fact, the kind of chap who would have charged head-on with a single bucket of water. To look down into the barrel of a gun in the other fellow's hand was as placidly accepted an affair for him as to light his pipe. He was sent for one day.

"What's the matter?" he asked. "Cowboy in that room," said a citizen, designating the place. "He's wild and dangerous. He's locked himself in, and we're afraid he'll break out and do us harm."

"So this officer opened the door of the room and looked in. The cowboy had a six shooter in one hand and a stick of dynamite in the other and calmly remarked that he would turn them both loose to ease the officer's conscience into the room. The officer considered the thing for a minute. Then he backed away and as he did so remarked:

"Let him sleep it off. They is times when a man who ain't afraid is a blind fool."—Kansas City Journal.

To feel strong, have a good appetite and digestion, sleep soundly and enjoy life, use Burdock Blood Bitters, the great system tonic and builder.

THE RIVER SEINE.

Its Contact With Paris on Its Journey to the Sea.

Inevitably in its passage through Paris the blue and silver of the Seine's robe are blurred by contact with the volumes of smoke which occasionally hang upon its surface and stained by the impurities which reach it from the streets. Though it quickly recovers its pristine blueness after the fortifications have been left behind, it is never again quite the unsophisticated river that it was before its Paris experience. Its waters are less limpid, its course more nervous, while at its meeting with the sea at Honfleur its color and character have changed completely. There the vast stretches of mud over which it rolls, mud of Paris, mud of Rouen, give to the waters of the wide Seine estuary reaching from Trouville to Le Havre the half dead moire tones of oxidized silver. The great Parisian river dies magnificently, and no more gorgeous spectacle can be conceived than when on a fine evening the sun sets upon the Seine at its junction with the sea, where its ultimate cliffs fade away behind the summer haze into a powder of gold, and it burns a light turquoise blue, with weird reflections of brazen yellow, old gold and cadaverous green. How different from its gentler and simpler aspect as it bubbles round the heart of Paris, warm purple and burnished gold when the sinking sun strikes it as it softly laps against the stone embankment of the Louvre or sparkling blue, dappled with milk white, beneath the silvery mists of the Paris morning!—Harper's Weekly.

MOLL CUTPURSE.

Bold Highway Robber and the First English Woman Smoker.

Mary Frith, better known as Moll Cutpurse, was a notable figure in old time London life. She had the reputation of being the first woman to smoke tobacco in England.

The length of her days is a disputed point, but it seems certain that she attained the age of over three score years and ten. It is asserted that constant smoking prolonged her life. A portrait representing her in the act of smoking forms the frontispiece of Middleton's comedy of the "Roaring Girl." She also figures in other plays of the period.

Mary was the daughter of a shoemaker living in the Barbican, and Malone gives 1584 as the date of her birth. She early took to wicked ways and became a noted "highwayman." Among her familiar friends were the notorious Captain Blind and Richard Hannam. She was an expert swordswoman. Single handed she robbed on Hounslow heath General Fairfax of 200 gold Jacobuses, shooting him through the arm and killing two of his horses on which his servants were riding. For the offense she was committed to Newgate, but on paying the general £2,000 she obtained her liberty.

At one time Mary had £3,000 of her own, but by giving money to distressed cavaliers she died comparatively poor. Her death took place in July, 1659, and she was laid to rest in St. Bridget's, Milgate Monthly.

HOW A HORSE GALLOPS.

The Natural Way and the Conventional Pose in Art.

How does a horse gallop? Owing to the rapidity of action it cannot be seen by the human eye. However, just as the individual spokes of a rapidly revolving wheel can be made visible by a flash of lightning, so the action of a galloping horse can be and has been analyzed by instantaneous photography.

The statuette of Sysonby, the thoroughbred, has been made from photographs taken at the instant when all four legs are off the ground. The back is arched, the hind feet are directed forward, the fore feet backward, so that all are tucked under the animal's body.

When the limbs again touch the ground the first to do so is one of the hind feet, which is thrust far forward so as to form an acute angle with the line of the body and thus serve the purpose of a spring in breaking the force of the impact of the hoof when the horse is going at top speed.

In the conventional mode of representing a galloping horse all four legs are off the ground at once, but the front pair are extended backward in such a way that the undersurfaces of their hoofs are directed skyward, the body being at the same time brought near the ground. This conventional pose appears to have been derived from a dog running, when the front and hind pairs of legs are respectively extended forward and backward, with the soles of the hind feet turned upward.

This pose, it is thought, was adopted to represent the gallop of the horse by the goldsmiths of Mycenae between 800 and 1000 B. C., whence it was transmitted by way of Persia and Siberia to China and Japan, to return in the eighteenth century as the result of commercial relations to western Europe.—Chicago Tribune.

The Earwig.

There is no insect which has puzzled naturalists as to its proper classification more than the earwig. Some have asserted that it belongs to the beetles, of which it is an "aberrant type," others that it is connected with the grasshoppers. Even about its very name there has been endless discussion. Some have thought the name earwig is the result of the creature's supposed habit of getting into the ears, while others are equally certain that it is derived from the original name, which they say was earwing, from the fact that the wing when spread resembles the human ear. At all events, one thing is certain—the earwig as we know it now is a survival of an early type of which almost every other member has become extinct.

A Broken Back.

That pain in your back caused by lumbago, stiff muscles or a strain, is an easy thing to get rid of. Ballard's Snow Liniment cures rheumatism, lumbago, sore and stiff muscles, strains, sprains, cuts, burns, bruises, scalds and all aches and pains. You need a bottle in your house. Sold by W. M. Johnson.

A Tiny Baby

Can't tell you in words what the trouble is; but if it's complexion gets pasty, if it gets weaker and weaker, loses flesh and is cross and peevish, you can be certain that it has worms. Give it White's Cream Vermifuge, guaranteed harmless. Expels the worms and puts the baby in a healthy normal condition. Sold by W. M. Johnson.

"Nisi Prius."

People often ask the meaning of the legal expression "nisi prius." Literally interpreted, it means "unless before," a name given to the sittings of a court for the trial of civil causes. Judges on circuit, besides trying prisoners, have the power to give decisions in cases of complaints between private parties and when so acting are called judges of "nisi prius." Formerly, when the circuits were less frequent, the sheriff was commanded "by writ" to bring the jury and witnesses from the county where the action arose to Westminster, Gloucester or Winchester on a certain day, but when the assizes became frequent a "nisi prius" clause was inserted in the writ containing these words: "Unless before that day our justices shall come to your county and take the assizes there." As it happened that the assizes always did take place before the date named in the writ, the clause was practically useless and now remains only as a name for those civil causes to which until recently it referred.—Dundee Advertiser.

Want advertising is a force which can be used to great advantage.

Metheglin.

Metheglin and hypocras were numbered among the many good things beloved of Pepys, and the latter drink stood him in good stead at a guildhall banquet which occurred during one of his spells of pledged abstinence from wine. This was on lord mayor's day, 1663, when the diarist notes: "We went into the buttry and there stayed and talked and then into the hall again, and there wine was offered, and they drunk, I only drinking some hypocras, which do not break my vow, it being, to the best of my present judgement, only a mixed compound drink and not any wine. If I am mistaken, God forgive me. But I hope and do think I am not." He was. Hypocras was usually composed of spice, herbs and sugar steeped for many days in Rhenish wine, and it is not reasonable to suppose that the lord mayor's butler had forgotten the wine.

English "Consols."

The young woman who has been explaining in the north London police court that she expected £15 invested in consols to bring her in 10 shillings in the pound interest knew about as much concerning "the funds" as the elder Mr. Weller. You recall Sam Weller's scorn upon discovering that his father supposed "reduced consols" to be alive. But there is one single point about consols which most people, probably including many who possess some, could not answer off-hand—of what exactly is the name an abbreviation? There is nothing even to remind us of it. Even the precise persons who would die rather than contract "omnibus," "telephone" or "photograph" never speak of "consolidated annuities."—London Chronicle.

Notice of Application for Tax Deed Under Section 8 of Chapter 4888, Laws of Florida.

Notice is hereby given that J. J. Hoffman, purchaser of Tax Certificate No. 381, dated the 6th day of August, A. Women Suffer Agonies from Diseased Kidneys

And Most Women Do This Not Knowing the Real Cause of their Condition

These poor, suffering women have been led to believe that their misery of mind and body is entirely due to "ills of their sex." Usually the kidneys and bladder are responsible—or largely so. And in such cases, the kidneys and bladder are the organs, that need and must have attention.

Those torturing, enervating sick headaches, dragging pains in back, groin and limbs, bloating and swelling of the extremities, extreme nervousness or hysteria, listlessness, and constant tired, worn-out feeling—are almost certain symptoms of disordered and diseased kidneys, bladder and liver.

DeWitt's Kidney and Bladder Pills have, in thousands of cases, been demonstrated as remarkably beneficial in all such conditions of female organism—affording the most prompt relief and permanent benefit.

As an illustration of what these Pills will do, Mrs. P. M. Bray of Columbus, Ga., writes that she was very ill with kidney trouble, and that she is now well—and that these Pills are what cured her.

They are very pleasant to take, and can in no case, produce any deleterious effects upon the system—as syrupy, alcoholic, liquid preparations are apt to do.

E. C. DeWitt & Co., Chicago, Ill. want every man and woman who have the least suspicion that they are afflicted with kidney and bladder diseases to at once write them and a trial box of these Pills will be sent free by return mail post paid. Do it to-day.

THE SUN JOB OFFICE

Gainesville, University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by such fertility as to be capable of producing a great variety of crops; the heart of the truck-growing, dairy and naval stores belt. She has the best educational advantages the State, good churches, with which are superior to any other of its size in Florida, with large and consistent congregations; has a city which cannot be excelled for beauty and pleasure. All these natural advantages combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in proximity to the city, some of which are Alachua Sink, Paine's Lake, the Devil's Mill Hopper, War-Cave, and Lake Newnan, all of which are reached by private conveyance. Park Stock Farm, the largest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, a most pleasant drive. The farmers of Alachua county, of which Gainesville is the county seat, are at home and board at the same place. The temperature is very uniform, scarcely ever reaching the ninety in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing every nationality on the face of the earth, and strangers always find a hearty welcome.

ABOUT ADVERTISING—NO. 3

How to Write Retail Advertising Copy

By Herbert Kaufman.

A skilled layer of mosaics works with small fragments of stone—they fit into more places than the larger chunks.

The skilled advertiser works with small words—they fit into more minds than big phrases.

The simpler the language the greater certainty that it will be understood by the least intelligent reader.

The construction engineer plans his road-bed where there is a minimum of grade—he works along the lines of least resistance.

The advertisement which runs into mountainous style is badly surveyed—all minds are not built for high level thinking.

Advertising must be simple. When it is tricked out with the jewelry and silks of literary expression it looks as much out of place as a ball dress at the breakfast table.

The buying public is only interested in facts. People read advertisements to find out what you have to sell.

The advertiser who can fire the most facts in the shortest time gets the most returns. Blank cartridges make noise but they do not hit—blank talk, however clever, is only wasted space.

You force your salesmen to keep to solid facts—you don't allow them to sell muslin with quotations from Omar or trousers with excerpts from Marie Corelli. You must not tolerate in your printed selling talk anything that you are not willing to countenance in personal salesmanship.

Cut out clever phrases if they are inserted to the sacrifice of clear explanations—write copy as you talk. Only be more brief. Publicity is costlier than conversation—ranging in price downward from \$6.00 a line, talk is not cheap but the most expensive commodity in the world.

Sketch in your ad to the stenographer. Then you will be so busy "saying it" that you will not have time to bother about the gewgaws of writing. Afterwards take the type-written manuscript and cut out every word and every line that can be erased without omitting an important detail. What remains in the end is all that really counted in the beginning.

Cultivate brevity and simplicity. "Savon Francais" may look smarter, but more people will understand "French Soap." Sir Isaac Newton's explanation of gravitation covers six pages, but the schoolboy's terse and homely "What goes up must come down" clinches the whole thing in six words.

"That Which Is Worth Having Is Worth Advertising For"

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocket-book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

Best for Biscuits.

A prominent teacher in one of the Domestic Science schools in Mississippi writes that she is using Cottolene in her lessons with excellent results. She says: "For biscuits Cottolene is all that could be desired. The biscuits are light and flaky, with none of that disagreeable odor often found in foods shortened with lard. Cottolene is also an excellent medium for frying croquettes and doughnuts. It gives them a clean, crisp, brown crust."

Other noted experts, such as Mrs. Rorer and Marion Harland, have given similar testimony to the merits of Cottolene. It is a cooking fat made from the finest vegetable oils; it gives better results than lard, and it is much more wholesome and economical as well.

Capt. W. G. Shehee of High Springs is in the city attending court.

When you have a cold the first thing to do is have the bowels move. Do not take anything that may constipate—and most old fashioned cough cures do constipate. Try Kennedy's Laxative Cough Syrup. It drives the cold from the system by a free yet gentle action of the bowels; it stops the cough, it is pleasant to take. Children like it. Sold by all druggists.

NEEDS CITY'S ATTENTION.

Union Street Bridge Across Sweetwater Branch is in Bad Shape.

The Sun has a number of times called the attention of the Street Committee of the City Council to the condition of the foot bridge on East Union street, crossing Sweetwater branch, but for some reason they fail to make any provision for its improvement.

This location is traveled as much, if not more, than any one street in the city, still it receives less consideration from the council and has been a source of much displeasure to a large number of people.

The property owners adjoining this place have recently had new granolithic sidewalks built leading to the crossing, and if the city is not able to culvert this place and make it the same as they have a number of other less important places, it looks as if they would build a new foot bridge across the creek and make it passable. In its present condition it is dangerous and the underwork is all rotting away.

T. C. Norfleet of Newberry was a visitor here yesterday.

Let a want ad. negotiate a trade for you—of something you don't need for something you do.

J. E. Rush, a broker of Ocala, arrived in the city yesterday for the purpose of consulting the local trade.
